

NATO CIMIC Basics

AJP-3.19(B)

Civil-military Cooperation (CIMIC) – A military joint function that integrates the understanding of the civil factors of the operating environment and that enables, facilitates and conducts civil-military interaction to support the accomplishment of missions and military strategic objectives in peacetime, crisis and conflict.

“... support the accomplishment of missions and military strategic objectives ...”

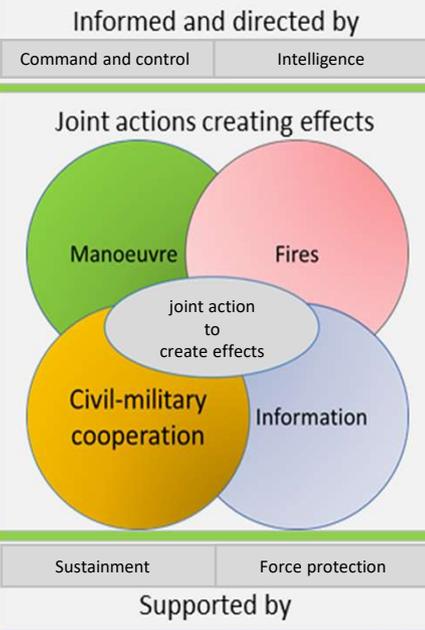

“... integrates the understanding of the civil factors of the operating environment ...”

“... enables, facilitates and conducts civil-military interaction ...”

Joint function CIMIC

Core activities

Joint function framework

“The joint functions framework assists commanders to integrate political, military and civil actions through the operational domains.”

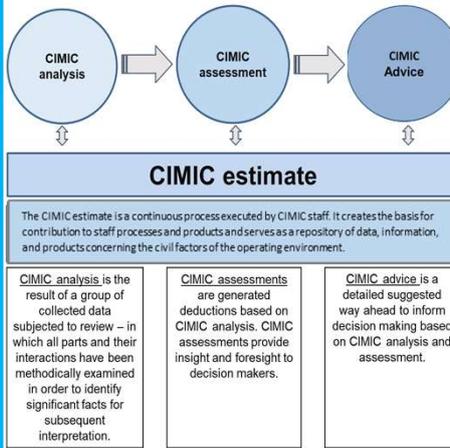

AJP-01(F)

Multi-domain operations (MDO)

The orchestration of military activities across all operational domains and environments, synchronised with non-military activities to enable the Alliance to create converging effects at the speed of relevance.

Civil factor integration

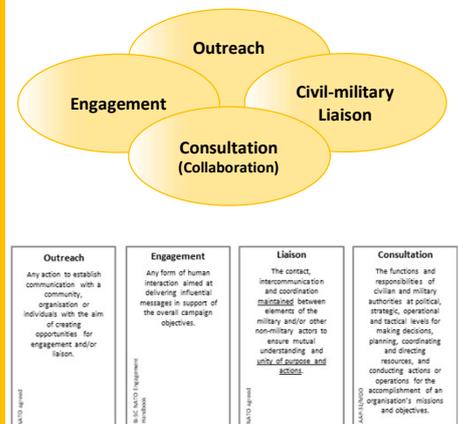

CIMIC Analysis and Assessment Workflow

CIMIC Analytic Spectrum

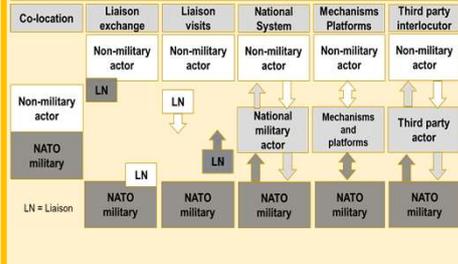

Civil-military interaction

Levels of interaction

- Integration:** Process of operating together to attain a unified end state
- Cooperation:** Process of acting together for mutual benefit
- Coordination:** Process of bringing together different elements of a complex activity or organisation into an efficient relationship
- De-confliction:** Process of avoiding undesirable interference among actors
- Consultation:** Seeks the opinion or advice of other actors, which may include exchange of information and discussion
- Coexistence:** The state or condition of existing at the same time or in the same place

Civil-military liaison arrangements

Key tenets for CIMIC

Comprehensive approach: Combining all available political, military and civilian capabilities, in a concerted effort to attain the desired end state.

Behaviour centric approach: Focuses planning and execution of activities of all levels of operations to influence the attitudes and behaviour of targeted audiences to attain the end state.
